

3D PLUSH ALPHABET

Plush letter prompts

Soft, premium 3D letterforms — brand-asset prompts you can run today.

HOW TO USE

Build your whole alphabet

Run these in your image model of choice (Midjourney, Nano Banana, or GPT Image work well). To make a full set, change only the letter in the first line and keep every other line identical — that's what keeps the texture, lighting, and proportions consistent across the alphabet.

CONSISTENCY TIP

Same fabric language + same lighting + same camera = a matching set. Change the letter, never the style lines. Export each on a transparent background so you can composite them freely in Canva.

PROMPT 01 · TEDDY PLUSH

The letter "A"

Create a luxury 3D letter "A" in a soft Teddy bear plush toy style.

Requirements: single isolated letter only, rounded, smooth, inflated letterform, cute premium toy-like proportions, realistic Teddy bear plush texture with visible soft fur fibers, dense tactile fluffy surface with natural fabric depth, short curly plush fur, cozy stuffed-toy appearance, subtle stitched seams along the edges, delicate handmade stitching details, soft padded teddy-bear material look, matte soft-touch finish, no gloss, no reflections, perfectly clean silhouette, centered composition, do not create a full bear, letter only.

Color: warm creamy off-white, hex #EFE6D3

Lighting: soft warm studio lighting, gentle highlights on fur fibers, realistic soft shadow falloff, cozy premium product photography

Material: ultra-soft Teddy bear plush fabric, short fluffy fur, stuffed toy textile texture, visible micro-fibers, subtle seams, soft padded surface, handmade plush toy feel

Background: transparent background (PNG, alpha channel)

Camera: front view, centered, slight macro feel

Quality: ultra high resolution, photorealistic CGI, extremely detailed plush fibers, sharp clean edges, premium branding asset, isolated object, professional product render

Make it transparent.
